

11th International Conference on ADVANCED NETWORKS AND TELECOMMUNICATION SYSTEMS

IEEE ANTS 2017
BHUBANESWAR, ODISHA, INDIA
December 17-20, 2017

CALL FOR PHD FORUM

THE TOPICS OF INTEREST COINCIDE WITH ANTS 2017

(<http://ants2017.ieee-comsoc-ants.org/authors/call-for-papers>)

This year the theme is “**Communications for Smart City**”.

Representative (but not limiting) topics include:

1. Wireline Networks
2. Wireless Networks,
3. Network Applications and Related Areas

IMPORTANT DATES:

Main Conference Track:

Paper submission: ~~20 June 2017~~

Extended to: **2 August 2017**
[Hard Deadline]

Notification: **5 October 2017**

Call for Workshops:

Proposal Submission: **31 July 2017**

Notification: **1 September 2017**

Call for Tutorials:

Proposal Submission: **31 July 2017**

Notification: **1 September 2017**

PhD forum (Minimum 2 pages):

Paper Submission: **31 July 2017**

Notification: **30 September 2017**

PHD FORUM CO-CHAIRS:

Goutam Chakraborty,
Iwate Prefectural Univ., Japan
(goutam@iwate-pu.ac.jp)

Lai Junyu,
University of Electronic Science &
Technology of China, China
(laijy@uestc.edu.cn)

AIMS & TOPICS OF INTEREST:

ANTS is the premier IEEE forum on networking and telecommunications topics in India and the only conference in India financially sponsored by IEEE Communications Society. Submissions are invited for the Ph.D. Student Forum.

The PhD forum provides an opportunity for research students to showcase their original yet incomplete 'work-in-progress.' Apart from the TPC reviews, presentations would allow authors an opportunity to have detailed discussions with the conference attendees and obtain feedback on their work. The forum also encourages authors to hold live and/or interactive demonstrations as part of their presentations.

HOW TO SUBMIT:

Original submissions are invited for ANTS 2017 PhD forum in the broad areas of wire-line networks, wireless networks, and network applications. Authors must submit a minimum two page extended abstract using EDAS (<http://edas.info/N23609>) on or before July 31, 2017. The abstract should describe the main motivation and results in sufficient detail to allow the reviewers to assess the potential contribution of the work. The abstracts should be authored by active PhD Students only and should be at most one page long in two-column format. A set of 5-7 keywords should accompany the abstract. The abstracts will not be archived, and the authors would not need to sign the IEEE copyright form. Abstracts will be reviewed by the TPC and only selected work can be presented in the conference. However, the selected abstracts will not appear in IEEE-Explore. Submitted abstracts should be unpublished and not under review for any other publication and if selected the authors must present their work at the conference.

Submission Site: <http://edas.info/N23609>
