Fourteenth Annual Tulane Engineering Forum – Friday, April 4th

TULANE ENGINEERING FORUM

Friday, April 4th

Morial Convention Center, New Orleans – 3rd Floor Conference Rooms above Halls I & J

FOR IMMEDIATE RELEASE *New Orleans, La.*: The fourteenth annual Tulane Engineering Forum will be held at the Morial Convention Center on Friday, April 4th. This one-day conference will host more than twenty presentations prepared for professional engineers, scientists and technical managers. Five hundred+ engineers and industry professionals are expected to attend.

Experts from around the country will share their knowledge through plenary sessions, panel presentations and concurrent sessions covering **Infrastructure, Energy, Oil and Gas, Chemical Processing, Wetlands, Coastal Restoration, Levees and Flood Protection**. The Morning Plenary will discuss the Institute for Human and Machine Cognition (IHMC) and the [DARPA Robotics Challenge](#), by Kenneth Ford, co-founder and CEO, IHMC, and selected members of the IHMC robotics team. **James J. Donelon, Louisiana Commissioner of Insurance**, is the featured Luncheon Keynote Speaker. Distinguished Author **John Barry** and former Chairman of the Coastal Protection and Restoration Authority of Louisiana, **Garrett Graves** are also among this year's speakers.

Cost: Tulane Alumni Registration: \$250; General Public Registration: \$275

Sponsorship opportunities available ranging from \$500 to \$10,000.

To register, sponsor or view a complete copy of the program, visit <http://tef.tulane.edu>. Professional engineers can earn eight (8) professional development hours for attending, including one (1) ethics professional development hour.
