Columbia Section Panelists Guidelines

TECHNICAL SESSIONS

INFORMATION FROM EACH PANELIST

Email your bio-sketch no later than 2 months prior to your event to r3-columbia@ieee.org. This should be your picture and a paragraph containing your title, name, job title, organization’s name, high-level job description, and a short description of a current project, initiative, or research effort in which you are involved. This information will be used to promote you in the upcoming Technical Session.

Submit presentation needs. Let us know your presentation needs 1 month prior to your event.

Bring demonstration products, if appropriate. You are encouraged to bring gadgets, models or brochures to help deliver your points. If PowerPoint will be used, please note you are restricted to 3 slides. Technical Sessions use these tools to engage the audience in an active but advanced learning experience with you – the most important resource.

Information-sharing. Information and pictures captured during the event will be shared via the Section (website and emails) for promoting future events. You may share additional content with the Section as well as link to the Section website.

Complete an Expense Form or an Employer Notification Form, as needed. IEEE is a 501(c)(3) nonprofit organization. An IEEE Expense Report form is required for claiming approved costs associated with your participation. Additionally, if you would like acknowledgement of your participation to be gladly sent to your employer, please request either form via r3-columbia@ieee.org.

QUESTIONS
Please feel free to contact the person listed above.

Location. This information will be provided.

Parking. This information will be provided.

Panel Organization
• Panelists: Organization 1, Organization 2, Organization 3
• The session will take place in the Location with panelists seated at front.
• The moderator will use up to 3 minutes to introduce the topic for the evening.
• Each panelist can use up to 5 minutes for their respective introductions.
• The moderator will next launch discussions of challenges, innovations, standards, examples, public policies, "what's coming", "what's needed", "how do we compare to the world", investments, jobs, and so forth.
• Both moderator and panelists should be sure to explain complex concepts and provide access to advanced knowledge and practice.
