
Title: Minutes of CISTC Meeting Held at ICC 2012
Date/Time: 12:00 – 14:30, Wednesday, June 13rd, 2012
Place: Les Saisons (Congress Center Hotel Westin)
Contact: Xiaodong Lin (Xiaodong.lin@uoit.ca)

1 Welcome / Introduction

The TC Chair, Dr. Peter Mueller, Award Chair and the former CISTC Chair, Dr. Hsiao-Hwa Chen, Vice Chair for conference, Dr. Yi Qian, and Secretary, Dr. Xiaodong Lin attended the meeting.

The meeting started at 12:00pm in the Westin Ottawa, Les Saisons, 3rd Floor. The total number of attendees was **80** (the complete list is given in **Appendix I**).

The TC Chair, Dr. Peter Mueller, welcomed all the audience. Then, he introduced the TC officers who were recently elected at Globecom 2011 and listed below

- Chair: Peter Mueller
- Vice Chair on Conferences: Yi Qian
- Vice Chair on Publications: Kejie Lu
- Secretary: Xiaodong Lin

The TC officers also include

- CISTC representative for IEEE ComSoc Standards Board: Dhadesugoor R. Vaman
- Award Chair: Hsiao-Hwa Chen (former CISTC Chair)

He also announced that the number of CISTC members has reached about 3600 active members.

Also, he gave update on - What's new on the committee website (<http://committees.comsoc.org/cistc/>), in particular two mail distribution lists including

- cistc@comsoc.org
TC internal announcements
ICC, GlobeCom
Annual meetings (2 per year)
Awards
- cistc-distribution@comsoc.org
CFP ditribution
Open to all signed-up members to distribute CIS-TC related CFPs
Encouraging members to sign up for cistc-distribution@comsoc.org and start using it

Then, he gave update on - What's new in our committee?

- Fostering Tutorials / Forums
ICC'12 Industry Forum on 'Cloud Security'
GC'12 Industry Forum on 'Security of Cloud Computing, Storage, and Networking' (**already accepted**)
- Award
Call for our service award is open - until August 1, 2012
Send an email to the CIS-TC Chair or Award Chair
- New Conference on Security
Two proposals received, including one from Dr. Peter Stavroulakis and another one from Dr. Wenjing Lou
Proposals reviewed
No final decision from ComSoc board yet

2. Approval of the Agenda

The agenda of the CISTC meeting was approved unanimously by the attendees.

3. Approval of Meeting Minutes GC'2011 (Houston, Texas, USA)

The minutes of the meeting can be found in the TC website:

http://cms.comsoc.org/SiteGen/Uploads/Public/Docs_TC_CIS/CISTC_Meeting_Globecom11_Minutes.pdf

There is no objection, the minutes of the CISTC meeting at Globecom'11 was approved as posted by the attendees.

4. Reports on Conferences

Dr. Yi Qian, the TC Vice-Chair for Conferences, gave an overview on the conferences technically sponsored by the committee in 2011-2012, including GC'11 and ICC'12. Currently, TC technically sponsors two Communication and Information System Security (CISS) symposium, including CISS Symposia at both Globecom and ICC.

Some representatives among the attendees presented reports about the acceptance rate, the number of reviews per manuscript, and the number of TPC members. Dr. Abderrahim Benslimane gave an update on the statistics about ICC'12-CISS. In addition, Dr. Yi Qian further presented some information about the future Globecom and ICC, especially the three future versions of ICC and Globecom, including ICC 13, Globecom 13 and ICC 14.

Dr. Yi Qian also reiterated the acceptance rate rule about ICC-CISS and Globecom-CISS in ComSoc and the acceptance rate should be around 35%. The detailed information

about the conferences that have been organized during the foregoing year can be found in **Appendix II**.

Then, Dr. Yi Qian presented some information about the conferences that have been endorsed by TC. Furthermore, Dr. Yi Qian reiterated TC Endorsement policy, which requires at least three TC members to endorse and support the conference requesting the endorsement. The list of the conferences that have been endorsed can be found in **Appendix II**.

5. Reports on Publications

On behalf of Dr. Kejie Lu, Dr. Peter Mueller presented a report on the publication activities supported by the committee. In the past year, CISTC members have contributed a lot and participate in many special issues and books. For the list of special issues and books, please refer to **Appendix III**.

He also mentioned some book in preparation and upcoming Journal Special Issues. For the list of special issues and books, please refer to **Appendix III**.

Additionally, he introduced an idea about feature topics focusing on Security issues on Internet of things, which has been proposed by CISTC member, Maryline Laurent.

At the end of this period, two questions were asked as follows

Q: Should these journal special issues that are not IEEE be included?

A: Included.

Q: I don't see my special issues in the list?

A: The current list is based on the information and activities shared with our TC by the members. In order for their special issues and books to be included in the report, the members have to send the TC their special issues' information and activities information.

6. Report on Activities in Smart Grid Communication Ad hoc Committee.

Dr. Yi Qian, the TC Vice-Chair for Conferences and also the CISTC representative in the Ad hoc Committee for Smart Grid Communication, presented a report on activities in Smart Grid Communication Ad hoc Committee.

He first introduced two special issues related to smart grid

- **IEEE Communications Magazine, Feature Topic on Cyber Security for Smart Grid Communications**, Manuscript Submission: January 15,

2012; Publication: August 2012 & January 2013; Guest Editors: Rose Qingyang Hu, Yi Qian, Hsiao-Hwa Chen, Hussein T. Mouftah

- Received 36 paper submissions;
- 7 papers will be published on August 2012 issue; 5 papers will be published on January 2013 issue.
- **IEEE Wireless Communications Magazine, Recent Advances in Wireless Technologies for Smart Grid**, Manuscript Submission: September 1, 2011; Publication: June 2012; Guest Editors: Rose Qingyang Hu, Yi Qian, Jiangzhou Wang
 - Received 21 paper submissions;
 - 7 papers will be published in this special issue.

Then, Dr. Yi Qian also announced that IEEE SmartGridComm 2012 will be held in Tainan, Taiwan, November 5-8, 2012, and that Dr. Hsiao-Hwa Chen will be the leading TPC Chair. Therefore, a strong CISTC involvement will be expected.

Dr. Hsiao-Hwa Chen added a few additional facts about IEEE SmartGridComm 2012

- Third time in IEEE SmartGridComm history
- 300 submissions, and 100 to be accepted

Also, on behalf of IEEE SmartGridComm 2012 conference organizing committee, Dr. Hsiao-Hwa Chen welcomes the members to visit Tainan, where the conference will be held.

7. Next CIS-TC Meeting

The next IEEE ComSoc's Communication & Information Security TC (CIS-TC) meeting will be held at Globecom 2012, Anaheim, California, USA.

8. Remarks

At the end of the meeting, members addressed their remarks by asking two main questions. Dr. Abderrahim Benslimane asked whether TC officers election policy for the next time has been released, and also raised his concerns about the activeness of TC members. However, there seems to be a consensus that how to distinguish active members is an ongoing process. Some members asked whether there is a written policy related to CISS symposium chairs nomination. Currently, there are no such policies in writing. Also, Dr. Peter Mueller emphasized the fact that TC only nominates candidates for CISS symposium chairs but chairs will be finally selected by conference organizing committee.

9. Adjourn

Dr. Peter Mueller thanked all the people who attended this TC meeting, and thanked all the CISTC members who contributed to the success of CISTC. The meeting ended around 2:30 pm.

10. Ideas about Future Security Conference

In the end of the meeting, Dr. Peter Stavroulakis introduced a new international conference proposed by him. The title of the conference is IEEE International Conference on MULTIMEDIA COMMUNICATION AND INFORMATION SECURITY with military applications (MCIS-ma).

The proposed conference will provide an international autonomous forum for the presentation of new CIS theoretical results on every possible area of multimedia communication and information security. This leads necessarily to their applications on Military and Defence systems the same way, as very correctly IEEE foresaw in 2004 that it was necessary to create a new Technical Committee on CIS. In addition real applications and implementations of MCIS to military systems as well as suggestions for new military system designs for industrial production will be possible without confidentiality restrictions to be violated.

(June, 2012)

Appendix I

The total **80** committee members attended the meeting.

1	Hsiao-Hwa Chen	National Cheng Kung University, Taiwan	hshwchen@ieee.org
2	Peter Mueller	IBM Zurich Research Laboratory, Switzerland	pmu@zurich.ibm.com
3	Yi Qian	University of Nebraska-Lincoln, USA	yqian@ieee.org
4	Mohamed Hamdi	School of Communication Engineering, Tunisia	mmh@supcom.rnu.tn
5	Xiaodai Dong	University of Victoria, Canada	xdong@ece.uvic.ca
6	Jelena MISIC	Ryerson University, Canada	jmisic@scs.ryerson.ca
7	Vojislav Mistic	Ryerson University, Canada	vmisic@scs.ryerson.ca
