The screenshot displays the LinkedIn group page for the TCCN-IEEE ComSoc Technical Committee on Cognitive Networks. The group is a standard group with 91 members. The page features a header with the group name and a 'Standard group' label. Below the header is a section for starting a new conversation, with icons for text, video, and document posts, and a 'Post' button. The main content area shows two posts by Zhijin Qin, a lecturer at Queen Mary University of London. The first post, posted 4 hours ago, announces the IEEE TCCN Recognition Award for 2018, which went to Prof. Ying-Chang Liang. It has 1 like and options to like or comment. The second post, also 4 hours ago, announces the IEEE TCCN Publication Award for 2018, which went to Prof. Zhi Tian. It also has options to like or comment. On the right side, there is a sidebar with 91 members, an 'Invite members' button, and a section titled 'About this group' which describes the group's goal: to provide a platform for members to share research, development, policy making, and standardization, and to interact and exchange technical ideas. Below this, it lists the group owner, Zhijin Qin, and two group managers: Yue Gao (Reader in Antennas and Signal Processing, EPSRC Fellow) and Jianwei Huang (Professor at CUHK).

IEEE ComSoc TCCN
Published by Zhijin Qin (?) · 33 mins ·

Congrats to the new TCCN chair @Yue Gao and TCCN officers. Thanks for the great contributions of the current TCCN chair @Jianwei Huang and the other officers!

Here is the new TCCN officers:

- Chair: Yue Gao (Queen Mary University of London, United Kingdom)
- Vice-Chair (Europe/Africa): Oliver Holland (King's College London, United Kingdom)
- Vice-Chair (Asia Pacific): Lingyang Song (Peking University, China)
- Vice-Chair (Americas): Daniel Benevides da Costa (Federal University of Ceará, Brazil)
- Secretary: Lin Gao (Harbin Institute of Technology, Shenzhen, China)

The screenshot displays the IEEE ComSoc Communities website. The header features the IEEE ComSoc logo, the text "COMSOC COMMUNITIES" with a group photo, and the IEEE logo. A navigation bar includes links for Home, Groups, FAQ, My Account, and Log Out. The main content area is titled "TC Cognitive Networks" and contains a detailed description of the committee's goals and activities. The description states: "The goal of Technical Committee on Cognitive Networks (TCCN) is to provide a platform for its members in particular, and the cognitive networking research, development, policy making and standardization community in general, to interact and exchange technical ideas to identify major challenges and also drive solutions in the development of cognitive networking technologies. The technical issues addressed by the committee will include spectrum agile/dynamic spectrum access networks, related issues from PHY to application layers, security issues, policy issues (e.g., spectrum policy reform by U.S., Canada and European Union), implementation technologies (e.g., software radio, middleware), economic considerations and standardization activities. Cognitive networks are touted to drive the next generations of digital communications. This technical area is attracting a tremendous amount of interest from academia, university, industry and government. New IEEE standardization activities, FCC's spectrum policy reform, federally funded research programs (e.g., DARPA XG and NSF NeTS ProWiN) are some examples of major activities supporting R&D in cognitive networks."
