*IEEE Communications & Signal Processing Societies Joint Chapter would like to invite you to the upcoming **FREE** seminar on IP Video Surveillance.*

" IP video surveillance - an irreversible trend for the future "
Mr. Fawzi Behmann, Founder of TelNet Management

Abstract

Advancement in Signal & Communications processing technologies have fueled the emergence, deployment and growth of Video Surveillance solutions and services in the past decade.

We are witnessing an unprecedented growth of video surveillance over the streets of Austin, Texas, the nation and the world. We see it in business, cars, schools, homes, government agencies, retail, public safety and law enforcement.

An effective Ecosystem solution video surveillance system encompasses sensing, GPS/GIS, processing, connectivity, DVR/NVR - big data and analytics.

The presentation will address the market, technology, requirements & ecosystem solutions in key markets as well as challenges and future trends and impact over our lives.

Speaker/Bio:

Fawzi, a senior member of IEEE and Chair of the IEEE COMSOC/SP Austin chapter is the president of TelNet Management. Fawzi Behmann, has many years of experience in global initiatives and product/solutions deliverables in key markets.

Fawzi held a variety of product and marketing leadership posts with semiconductor companies, equipment vendors and global service providers in the networking and communications industry. Experience include: corporate governance and streamline operations, strategic planning, technology assessment, strategy, system architecture, product and smart system solutions development, project management, and consulting services.

Fawzi holds a Bachelor of Science Honors in Mathematics with Distinction from Concordia University, Masters in Computer Science from Waterloo University and an Executive MBA from Queens University in Canada. Fawzi was a receipt the Freescale CEO Diamond Chip Award and recently an IEEE R5 Outstanding Member Award for services offered to the chapter, section, region and IEEE.
