

## Directions to National Instruments - Austin

National Instruments Corporation  
11500 N MoPac Expwy  
Austin, TX 78759-3504  
(512) 794-0100

From north Austin: If you are coming in from IH35, take the Parmer exit, go west on Parmer until you reach MoPac/FM1325, turn south onto the frontage road and stay on the frontage road, move to the right lane. From there you will pass through two lights, the 2nd light being Duval. You will see the National Instruments driveway on the right, just after an apartment complex.

From central/south Austin, take Texas Loop One (aka MoPac) or take U.S. Hwy 183 (North) to MoPac. Take MoPac north to the Duval Road exit. Exit the highway and proceed to the turnaround (u-turn), which puts you on the southbound frontage road of MoPac. Do not get on the highway. You will see the National Instruments driveway on the right, just after an apartment complex.

Once on the NI grounds, follow the signs for building in which the meeting is held (either B or C). For further directions and a map, please visit the National Instruments web site at <http://www.ni.com/contact/map2hq.htm>. To generate custom directions using MapQuest, follow this [link](#).

NOTE: If you miss the first entrance, you can take the second entrance – just before the turn-around to the MoPac north service road.

Parking is available in either surface lots or in parking garages adjacent to the buildings. Please feel free to park in any unrestricted parking space. The entrances for buildings B and C are indicated below. Please sign in at the security desk in the building's lobby.
