**B)** Assist Bob Arno in IEEE 493 Reliability Gold Book update with emphasis on reliability data in the Annexes

**C)** Submit paper on [August 2003 Power Outage](#) to Manuscript Central.

**D)** Try to finish the campus impedance grounding paper with David Shipp

**E)** Expand and improve the campus outdoor lighting chapter recently published as 3001.9 with Gary Fox leadership.

**F)** Lead the 4th Annual Field trip to the [Henry Ford/Thomas Edison Hydroplant](#) with Southeastern Michigan IEEE student members and Sharan Kalwani leadership..

**G)** Respond to *Harvard's Journal of Healthcare Management Standards* offers to publish "position papers" on any electrotechnology topics that appear in IEEE catalog. Two papers summarizing the work of Giuseppe Parise have already been published. Maybe I can get one done but helping Matt with the NEC and Bob with 493 has to take priority.

**H)** Fix the E&H Wordpress site, recently changed with the global Wordpress upgrade from Piscataway. Any help gratefully received.
