

Metrology for ARCHAEOLOGY AND CULTURAL HERITAGE 2021 IEEE WIE Italy AG Round Table

October 21st, 2021, 15:30-16:30

"Gender equality in Cultural Heritage: which path towards inclusivity?"

A WIE event in the frame of 2021 IEEE International Conference on
METROLOGY FOR ARCHAEOLOGY AND CULTURAL HERITAGE – October 20-22, 2021

Organized by
Dajana Cassioli,
Paola Fermo,
Sabrina Grassini,
Roberta Di Pace,
Leila Es Sebar.

Description

In line with the objectives of the **WIE Commitment Chart "Steering girls to STEM"** (<https://site.ieee.org/italy-wie/steer2stem/>), the purpose of the round table is to identify guidelines and prospects for growth and good practices that increase the inclusion of the women in the multidisciplinary world of the conservation of Cultural Heritage (material science, engineering, metrology, archaeology, conservation etc.).

"Typical male" and "typical female" roles are a widespread belief, which contributed to the development of stereotypes that have either promoted or narrowed chances for women and men to operate within the Cultural Heritage field. Indeed, in this context, gender equality is still an unsolved issue and reaching gender equality and inclusion in term of leadership and opportunities, is still a challenge.

The round table is focused on the discussion between representatives of scientific associations in the sector, role models and women leaders in the field from different disciplines that compose the Cultural Heritage world.

Agenda

October 21st 2021, 15:30 – 16:30

Panel session "Gender equality in Cultural Heritage: which path towards inclusivity?" – MetroArchaeo2021

15:30 – 15:40	IEEE WIE Italy AG activities and "WIE.steer2STEM.chart" <i>Dajana Cassioli, Chair of the WIE Italy AG</i>
15:40 – 15:50	Associazione Nazionale degli Esperti di Diagnostica e di Scienze e Tecnologie Applicate ai Beni Culturali – ANEDbc
15:50 – 16:25	Round Table involving <ul style="list-style-type: none"><u>Prof.ssa Lucia Toniolo</u> Dipartimento di Chimica, Materiali e Ingegneria Chimica "Giulio Natta" Laboratory Materials and Methods for Cultural Heritage<u>Dr. Paola Buscaqlia</u> Restauratrice e Coordinatrice del Laboratorio di Sculture Lignee presso il <i>Centro Conservazione e Restauro "La Venaria Reale"</i>
16:25 – 16:30	Closing remarks

Instructions for the participants

Participation in the WIE panel session is **FREE OF CHARGE!**

The event will be held in **hybrid mode**. Here the direct link <https://us02web.zoom.us/j/81813734785>
