The IEEE conference on Network Softwarization symposium, NetSoft, offers organizations and vendors the opportunity to demonstrate their products and services to the conference participants: leaders and innovators in the field of networking software, Software Defined Networking (SDN) and Network Function Virtualization (NFV) from around the world. Various levels of patron sponsorships are available. Conference Patrons may present their products and services in our Vendor Showcase, which will be open during the five days of the conference, in parallel with other sessions. The cost of sponsorship is being kept at a modest level to encourage broad participation and demonstration of innovative technologies. In addition, organizations and vendors are encouraged to sponsor special events and activities e.g., offering lunches or special gifts to the participants with their company material and logo.
