The **2nd IEEE North Jersey Advanced Communications Symposium** will be held at the Babbio Center, Stevens Institute of Technology, in Hoboken, NJ, on Saturday, September 20, 2014. The symposium is being organized by the IEEE North Jersey Section and its Communications, Computer, Information Theory and Vehicular Technology Chapters. The symposium consists of six invited presentations as well as poster sessions by graduate students and postdocs, covering advanced topics in communications, including small cells, internet-of-things, self-organizing networks and software defined networks. There will be plenty of opportunity to interact with presenters and network with peers at the coffee breaks, during the lunch break and at the closing reception.

The organizing committee is **currently inviting graduate students and postdocs** to prepare a poster presentation on recent research works, and cutting edge developing technologies in communications and related fields. Master students, PhD students and postdocs are all encouraged to participate. The poster session will be particularly helpful for student researchers to have direct interactions with faculty, industry researchers and regional IEEE officers and volunteers. This will serve as an excellent platform and opportunity to network for future collaborative research and career advancement.

Poster presentations will be on display all day and special dedicated exhibition times are scheduled for all attendees. Presenters will have opportunities to interact with all attendees. There will be two categories of poster awards: the **2014 IEEE North Jersey Section Wireless Communications Poster Awards** and the **2014 IEEE North Jersey Section Data Networking Poster Awards**. All submissions will be subject to review by the organizing committee. The first, second, and third place winners will receive prizes of **\$200/\$150/\$100** respectively (one prize per winning poster). All poster presentations will receive participation certificates.

If interested, please submit a title and an extended abstract (up to 250 words) to the poster session coordinator Prof. Hong Man at hong.man@stevens.edu by **August 31, 2014**. If accepted, presenters will be notified one week later. For posters that are selected for presentation at the event, the following guidelines shall be used to prepare the poster. All posters will be mounted using push pins onto presentation boards and posters may be no larger than 32 inches wide and 48 inches long. The electronic version of the selected poster is due on **September 14, 2014**. For any additional questions, please contact Prof. Hong Man.

Registration - Symposium	until Sep. 14, 2014	after Sep. 14, 2014
IEEE member	\$ 25.00	\$ 35.00
IEEE student/graduate student/life member	\$ 15.00	\$ 20.00
Non-member	\$ 40.00	\$ 50.00
Non-member (student/graduate student)	\$ 25.00	\$ 30.00
