

IEC – IEEE Cooperation on Nuclear Standards Update Nov 7, 2006

Edward Quinn – IEC SC45A

Kjell Spang – IEC/IEEE

Richard Wood – IEC/IEEE

Progress from IEC Lyon Meeting

- Two Tasks Identified for Cooperation
 - IEC 60780, Environmental Qualification – to be revised in cooperation with IEEE-323 – Project Leader for IEC – Richard Wood
 - Swedish National Committee Recommendation - NWIP for a new standard associated with IEC 60780 –Methods for condition monitoring of electrical equipment of safety systems for nuclear power plants - IEC Project Leader - Kjell Spang.

Recommendations – Joint Cooperation Path Forward

- IEC SC45A WG A9 recommendations to IEC
 - Dual logo interactions between IEC and IEEE must comply with Category D limitation.
 - Work projects will be specifically identified based on recommendations of this working group and the corresponding IEEE subcommittee.
 - IEC General Office must provide procedures to clarify the working arrangements between IEEE and IEC.
