

IEEE C37.98

Standard for Seismic Testing of Relays

Presented by Marie Nemier

PSRC Working Group Chair

April 8, 2008

IEEE C37.98

Standard for Seismic Testing of Relays

History

- ❑ Originally Published in 1978
 - ❑ Developed to agree on test method of protective relays
 - ❑ Members from utilities, manufacturers, relay engineers & testing labs
-

IEEE C37.98

Standard for Seismic Testing of Relays

Sponsor

- Power Engineering Society
 - Power System Relay Committee (PSRC)
 - Relaying Practices - I Subcommittee
 - Currently I10 Working Group
-

IEEE C37.98

Standard for Seismic Testing of Relays

Current Status

- PAR approved with Joint Sponsors of PSRC and NPEC SC-2
 - Standard needs to be updated to address digital, solid state multi-function relays and EMI/RFI requirements
 - Request for working group members
-
