

Office of the Chairman  
IEEE NPEC Subcommittee 2 (SC-2)

James Parelo, 2010 Chair

**2010 IEEE NPEC/SC-2 CORRESPONDING MEMBERSHIP FORM**

The IEEE PES Nuclear Power Engineering Committee (NPEC) Sub-Committee on Qualification (SC-2) has the option to offer corresponding membership to individuals whose expertise represents a valuable contribution to the sub-committee. Corresponding membership is offered to select individuals who are not normally able to attend the sub-committee meetings.

I am a current SC-2 member who has been active on the NPEC SC-2 sub-committee for at the least 6 years, but I currently cannot attend regular meetings. Going forward I am willing to contribute and comment on all technical sub-committee activities, including the development and review of standards documents and technical papers of the sub-committee. I understand that the qualifications and eligibility for Corresponding Membership are the same as those for regular SC-2 members except that I am not required to attend regular meetings and I will have no voting privileges.

By my signature, I am pleased to accept the above conditions and submit my petition to become a Corresponding Member of NPEC/SC-2
