

IEEE PES Subcommittee on Big Data & Analytics for Power Systems
Le Xie, Subcommittee Chair, Texas A&M University
Bo Yang, Webinar TF Chair, Hitachi America, Ltd.
Yang Weng, Webinar TF co-Chair, Arizona State University

IEEE BDA Webinar Series: Big Data & Analytics for Power Systems

We would like to take this opportunity to inform you that we are organizing a new webinar series, **IEEE BDA Webinar Series: Big Data & Analytics for Power Systems, starting June 28, 2017 at 2:00 PM EST (1:00 PM MST or 11:00 AM PST)**, supported by IEEE PES Subcommittee on Big Data & Analytics for Power Systems and IEEE PES Department of Education and Meeting Services.

The webinar aims at bringing together leaders from industry, academia, and government and meet regularly to define the architectural, computational, and practical challenges and opportunities brought by the emerging big data in smart grid. The webinar is scheduled to be held approximately every month or two, with speakers from industries and academic institutions. The initial discussion will focus on the standards, management, and analytics of big multi-domain multi-resolution data (PMUs, SCADA, Weather, GIS, etc.) for power grid operations. Our first two speakers will review existing big data applications and discuss exciting new ideas and technologies that are changing the electricity industry. The first speakers are

Speakers	Affiliation	Schedule
Chandrasekar Venkatraman and Pierre Huyn	Hitachi America, Ltd.	2:00 PM (EST) 06/28/2017

Subcommittee's Mission and Scope

Big Data initiative in the US and throughout the world has provided a unique window of opportunity for improving the analytical methods in power system operations. The proposed subcommittee will serve as a professional society hub to enable collective efforts towards defining a big data-driven grid operation roadmap.

Yours sincerely,

Webinar Organization Team,
Le Xie, Associate Professor, Texas A&M University
Bo Yang, Sr. Manager, Hitachi America, Ltd.
Yang Weng, Assistant Professor, Arizona State University
