MGA Ad Hoc: Smart Tech Workshop in a Box

- Appointed Chair by MGA VP Ralph Ford
- Examine how to ease the process of holding a financially responsible event in a Region for our industrial members
 - Increase membership and satisfaction
- Learn from past Metro Area Workshops
 - Including R2 Baltimore in November 2012
- Report to MGA board in June

Projects and Goals (1)

- Integrate IEEE-HKN into the Region
 - IEEE (ECE) Honor Society
 - Induct our professional members
- Develop the philosophy of EPICS (engineering projects in community service) into the Region
 - mechanism to excite and develop engineers, in the pre- and university system

Projects and Goals (2)

- Improve engagement, participation and involvement of Members
 - Make full use of progress in technical networking and communication
- Increase the number of volunteers
 - Establish a flexible regime of commitments
 - provide shorter, focused, modular assignments

Projects and Goals (3)

- Attract more students, especially graduate students, into IEEE
 - We are doing relatively little active recruiting now
- Channel the efforts of our GOLD members in keeping our newly graduated engineers engaged in the IEEE

Closing Thoughts

- Identify and build Region 2 volunteer teams
 - Work together towards R2 specific goals
- Strategic planning framework for R2
 - Examine what we want to do and how we are going to do it
