Presenters

Tim Sylvester

Founder, Integrated Roadways Inc.
"BUILDING THE BACKBONE NETWORK
FOR THE MOBILE IOT"

Tim Sylvester is an Electrical & Computer Engineer, Project Manager, Bloch E-Scholar, Techweek LaunchKC grant recipient, ENR-Midwest "Top 20 under 40" honoree, EDC-KC Cornerstone Award recipient, and Kauffman "Entrepreneurial All-Star." Tim has more than a decade of experience in construction, including residential, commercial, and infrastructure, spanning labor, design, engineering, and management, and has performed multiple research projects for the National Science Foundation. His work has been featured in the Wall Street Journal, Kansas City Star, Kansas City Business Journal, and numerous local, regional, and online publications.

Jeffrey Handal

IEEE Standards Coordinator
"BUILDING THE BACKBONE NETWORK
FOR THE MOBILE IOT"

The IEEE Standards Association is a leading consensus building organization that nurtures, develops and advances global technologies, through IEEE external link. It brings together a broad range of individuals and organizations from a wide range of technical and geographic points of origin to facilitate standards development and standards related collaboration. With collaborative thought leaders in more than 160 countries, it promotes innovation, enables the creation and expansion of international markets and helps protect health and public safety. Collectively, its work drives the functionality, capabilities and interoperability of a wide range of products and services that transform the way people live, work and communicate.
