

Student Branches Event Planning and Organization

In planning your Branch programs and events for the year, it is important to keep in mind that events where students are highly engaged are critical to your Branch's success. Ask your members what their interests are and try to meet what interests them. When choosing an event, **you should ask several questions to evaluate the potential of that event:**

1. *Will this event attract new members?*
2. *Do we have the resources to carry it through (e.g., time, people, funding)?*
3. *How will it satisfy the needs of existing members?*
4. *Does it meet a specific need for your Branch?*
