# Student Branch Activities Guidelines and Suggestions

In this document, a set of activity suggestions and a guiding calendar will be illustrated.

## Type of Activities Suggested

- Introductory meetings to introduce IEEE to the college students. It's normally conducted at the beginning of each semester.
- Field trips to an industrial facility that would expose the students to a different experience which is not usually offered inside the campus.
- Technical seminars that attracts the students to the modern technologies and applications (for example: IoTs, renewable energy, python, etc.). This activity is not shown in the calendar since its date is not fixed and it's suggested by the IEEE.
- Global and regional IEEE completions and activities participation. These events are announced by the IEEE to be implemented in all branches worldwide, Example: IEEE Day (Scheduled this year on October 1, 2019) or IEEExtreme (Scheduled this year on October 19, 2019), etc.
- Free activities that are suggested, planned and organized fully by the students in the branch.

In the Table below, a calendar that is highly recommended to be adopted for all IEEE Saudi Student Branches

| First Academic Semester | |
|---|---|
| **Month** | **Activity** |
| September | Introductory Meeting |
| October | Technical Seminar |
| November | Field Trip |
| December | Free Activity |
| **Second Academic Semester** | |
| **Month** | **Activity** |
| February | Introductory Meeting |
| March | Technical Seminar |
| April | Field Trip |
| May | Free Activity |
