

IEEE Day 2017 : Let the celebrations begin

IEEE DAY was celebrated for the 1st time in history when engineers worldwide and IEEE members gathered together to share their technical ideas in 1884.

IEEE Day's theme for 2017 is: “**Leveraging Technology for a Better Tomorrow**” cause simply while the world benefits from what's new, IEEE focuses and prepares for what's next. IEEE Day 2017 is the 8th edition of the same and is officially always celebrated on the first Tuesday in October, this year it was celebrated on 3rd October 2017.

Worldwide celebrations demonstrate the ways thousands of IEEE members in local communities join together to collaborate on ideas that leverage technology for a better tomorrow. We celebrate IEEE members!!!

The IEEE Day team is made up of student volunteers, young professionals, and staff. Together, they work to assure that this year's celebration will be even bigger and more impressive than the last editions.

The principle task of the IEEE Day team is to initiate, motivate, and coordinate events and efforts to celebrate this day worldwide.

In addition to an enjoyable time and empowering members to engineer the future and beyond, the team actively supports members and volunteers by creating an atmosphere of joy, motivation in a creative and cool way.

Members and volunteers are gathered together to share excitement, long term visions, and joy.

IEEE ISI (Higher Institute of Computer Science) Student Branch made the difference, the 65 members and volunteers were reunited the whole day to celebrate their day: everyone devoted time, effort and energy to come up with creative ideas.

The day before a teaser was released to circulate our celebration and invite the students to join us on our special day.

The girls and boys stood up all night to create innovative ideas and set down a decoration theme for both the presentation stand and the library.

10 of our brilliant members took care of the stand in the park after decorating it by balloons and IEEE mini-statutes, they directed students for registration booth, and they both answered their questions and informed them about IEEE Organization (its history, its benefits, the different chapters ...etc.) in a cool and brief way.

The registration booth and the stand were held all day long from 10am to 5pm.

At 1pm the president of IEEE ISI SB and the presidents of other chapters during an atmosphere of collaboration between the presidents and the public that was present to get more information about each and every chapter.

Each president took about 5-10 mns to present his chapter to the audience whether with PPT presentations, videos, pictures etc....

The presidents in order of intervention:

*Mahdi Traidi : IEEE ISI SB President,

* Amen Allah Ben Rzig : IEEE ISI CS President,

* Hiba Ghadab : IEEE Extreme ISI Ambassador,

*Aya ayari : IEEE ISI WIE President,

*Ghada Hajeji : IEEE ISI SIGHT President.

2pm the celebration was real, our IEEE's celebration cake arrived and filled the place with hunger and positive energy.

It was more than a cake, It sent sprinkles and goosebumps all over our hearts, it was delicious and have a flavor of victory and excitement.

Everything took an end at 5:30pm, but the celebration continued and still...

IEEE DAY celebrated by IEEE ISI SB filled not only the institute but every and each present soul by positive vibes; draw smiles all over the place; 92 new applicants filled the form; more than 200 pictures were took...

IEEE ISI SB has ambitions, dedication and motivation to continue to raise and make the name shine even brighter.

Long live #IEEE and Long Live #IEEE_ISI_SB
