

Your Good Warmth Others

خيرك يدفي غيرك a humanitarian action
in collaboration with **IEEE ISI**
Student Branch under the emblem of
وينك وقت البرد كلاني

With the belief that all of us are prophets of God, that all of us have a very specific message on this planet, that everything is mortal except of our actions towards others,

Hajeji Ghada, a 23 years-old student, started this warm and heart-melting humanitarian action since last January, for the benefit of any and every one who feels obstructed because of his/her social situation.

Hajeji Ghada, among her other extra-curricular activities, she was elected 3 months ago as the Chair of the IEEE (Institute of Electrical and Electronics Engineers) ISI (Higher Institute of Computer Science a.k.a ISI) SIGHT (Special Interest Group in Humanitarian Technology) Student Branch.

“خيرك دفي غيرك” or “Your Good Warmth Others” is a humanitarian action where all of its stakeholders are students: Young volunteers who believe in good and its benefits on each side of the story. Doing well to people is a sort of recognition: recognition to our families who embodied within us great values such as love, generosity, liberality, loyalty, brotherhood, love of others, gratefulness...; recognition to the Society we belong to, recognition to the country we grew up in..., recognition to our spirits in fact.

“Khirek Ydaffi Ghirek” in its 2nd edition, under the emblem “WINEK WA9T EL BARD KLENI” concentrates once again on families in need in the disadvantaged areas of our TUNISIA: with a small budget, the will and the determination of its volunteers “Khirek Ydaffi Ghirek” is willing to raise all sort of donations: clothes, food, blankets, mattress... . This time “Khirek Ydaffi Ghirek” and IEEE SIGHT ISI are working together: this time the donations will be delivered to the appropriate persons during a hike (the destination will be announced later on) where anyone wanting to volunteer his time and effort can participate with a symbolic price.

We are not dreaming of making the world a better place, we don't seek for perfection, our ULTIMATE GOAL is when we sleep at night we feel warm because we drew a smile on the heart of a person in need, when we sleep at night we feel warm inside knowing that we gave hope, courage, strength and belief for a person in a difficult situation that tomorrow will be a better place if we care enough for giving, when we sleep at night we will know that we left our footprints on the sands of time, we will know that we were something, we meant something.

You can donate anytime, anywhere and we will be there for you:

When we leave this world, we'll leave it with no regrets, we will leave something to remember, so our good won't be forget, that someday somehow our "GOOD did WARMED OTHERS".
