| 13.30  | Keynote Speech                 | **An Introduction to Differential Evolution**  
Ponnuthurai Nagaratnam Suganthan  
Nanyang Technological University, Singapore |
| 14.30  | Coffee Break and Group Photo   |                                                                               |
| 14.45  | Student Speaker 1              | **Time Series Analysis of Stock Prices based on Deep Learning**  
Sukanchalika Boonmatham and Phayung Meesad  
King Mongkut’s University of Technology North Bangkok |
| 15.00  | Student Speaker 2              | **White Blood Cell Classification: A Comparison between VGG-16 and ResNet-50 Models**  
Supawit Vatathanavaro, Suchat Tungjitnob and Kitsuchart Pasupa  
King Mongkut’s Institute of Technology Ladkrabang |
| 15.15  | Student Speaker 3              | **Possible Improvement to NSGA-III on Discrete Multi-Objective Optimizations**  
Peerasak Wangsom and Kittichai Lavangnananda  
King Mongkut’s University of Technology Thonburi |
| 15.30  | Student Speaker 4              | **Thai News Clustering Based on Machine Learning Approach**  
Aongart Aun-A-Nan and Phayung Meesad  
King Mongkut’s University of Technology North Bangkok |
| 15.45  | Student Speaker 5              | **RNA Splice Sites Classification Using Convolutional Neural Network Models**  
Thanayathorn Thanapattheerakul, Worrawat Engchuan, Daniele Merico, Kiyota Hashimoto, Narumol Doungpan and Jonathan H. Chan  
King Mongkut’s University of Technology Thonburi |
| 16.00  | JSCI Closing                   |                                                                               |
| 18.00  | IEEE-CIS Thailand Chapter Committee Meeting + Dinner with Speakers |                                                                               |
