

IEEE 5th World Forum on Internet of Things

15-18 April 2019 // Limerick, Ireland

SPONSORSHIP AND EXHIBITOR BROCHURE

IEEE invites you to showcase your organization, products, and services to a global audience of 750+ key industry decision makers, public sector administrators, and renowned researchers, creating the Internet of Things. Both sponsorship and exhibit opportunities are available.

ABOUT THE EVENT

The 2019 IEEE World Forum on IoT will be held in Limerick, Ireland on the campus of the University of Limerick, located on the outskirts of Limerick City. The IEEE's premier IoT conference will attract industry practitioners, government regulators, public-sector executives, researchers and academics interested in the latest developments, new standards, technical innovations, and first-hand experiences with commercial service and product offerings. This year's theme is "IoT and the Digital Revolution."
