

The Institute for Electrical and Electronics Engineers (IEEE) is a global not-for-profit organization with 430,000+ members in more than 160 countries. Our mission is to foster technological innovation and excellence for the benefit of humanity.

IEEE and its affinity group, Women in Engineering, are hosting a Women in Engineering summit in Philadelphia, PA from Nov 6 - 8, 2015 at the Sheraton University City.

The mission of our summit is to engage, empower, and inspire local women leaders in technical fields. Accomplished leaders in the local technical community will address topics including overcoming stereotypes, combating attrition of females in tech, and engaging youth in STEM fields.

Hands-on workshops centered around wearable technology and additive manufacturing (3D Printing) will be held. There is significant interest from the local science and technology community including presentations from: Comcast Cable, Johnson & Johnson, TechGirlz, Rockwell Automation, Tufts University, and Swarthmore College.
