Treasurer	Charles Rubenstein, Pratt Institute
Registration Chair	Abolfazl Razi, Northern Arizona University
Webmaster	M. Hossain Mohammadi, McGill University

Topics of interest

- Active and passive wireless sensors, systems, and networks
- Delay and disruption tolerant networks
- Network architectures, middleware, data management
- Big data processing and data fusion techniques
- Wireless privacy, security and routing techniques
- Localization, detection, classification and tracking
- Antenna design and processing
- Integrated vehicle systems and robotics
- RFID devices and systems
- Propagation modeling and channel description
- Optical communication systems
- Availability, certification, spaceflight qualification for wireless devices/systems
- Multi-carrier systems, spread spectrum techniques
- Cognitive radio networks, emerging technologies
- High speed, low latency, multi-stream data techniques

Co-Sponsors

In Collaborations with
NASA, CSA, and ESA

Submission formats

- Full papers (6 pages)
- Short papers (3 pages)
- Posters (1 page)
- Presentation only (1 page)

All submissions are online in PDF format.
