The AHSN Technical Committee 2014 Technical Recognition Award

The AHSN TC Technical Recognition Award aims to

promote ad hoc and sensor networks research and development activities in both academic and industrial communities.

This award is established as part of the AHSN TC activities in which R&D takes place in areas related to ad hoc and sensor networks. The award recognizes members of the IEEE Communications Society (ComSoc) who have made significant contributions to technological advancement of ad hoc and sensor networks.

The AHSN Technical Committee

2014 Technical Recognition Award

- **The AHSN TC Technical Recognition Award will be given in each calendar year. If no suitable candidate is proposed in a given year, the award will not be presented for that year. The award will be announced and conferred during the IEEE Global Communications (GLOBECOM) conference.**
- **Nominations are solicited by e-mail from the AHSN TC members. All nominations must be sent to the AHSN Award Selection Committee in PDF or text format by July 15 of the year in which the award is to be given.**
- **The nominations should include a concise description of the candidate's contributions to the technological advancement of ad hoc and sensor networks and any supporting materials showing that the candidate has met the award eligibility criteria.**
