IEEE IC – Outstanding Student Volunteer Awards

**Brief Bio:**

Chinmay is currently a graduate student at the NYU Tandon School of Engineering. He has a background in Electronics and Telecommunication and currently pursuing a Master's in Electrical Engineering. His research interests include areas of Wireless Communication, Telemedicine, Autonomous Vehicles and recently, Quantum Computing. He is currently working on building a prototype for a module kiosk for remote diagnostics called 'TBooth' with his teammates at NYU along with volunteering as the IEEE Graduate Representative.

**Achievement for which the award was given:**

Along with his close collaborators, Anjali Mishra and Jeet Dagha, Chinmay has contributed to many initiatives and student events for the IEEE Bombay Section and IEEE India Council. Starting out as the Secretary of his student branch chapter, Chinmay was closely involved in the IEEE community of his SB and the Section. He contributed to the IEEE IC SCT team as a Graphics Design Lead working on several major events including IEEE AISYWC 2019. He has also been an active volunteer of the IEEE Computer society, serving as an author for CS Compute, designer for CSIS and so on. Chinmay has been a part of other IEEE initiatives like Inspire India, which focuses on making educational resources available to school kids.
